PROFESSIONAL SUMMARY

Motivated and detail-oriented Full-Stack .NET Web Developer and recent Computer Science / IT graduate with a strong foundation in building responsive web applications and RESTful APIs using C#, ASP.NET Core, Entity Framework Core, and SQL Server. Passionate about clean architecture, database design, and modern web technologies. Currently expanding enterprise software development skills within the Digital Egypt Pioneers Initiative (DEPI).

TECHNICAL SKILLS

Back-End:	C#, .NET 8 / .NET Core, ASP.NET Core MVC, ASP.NET Core Web API, Entity Framework Core, LINQ, OOP, RESTful APIs, SOLID Principles.
Front-End:	HTML5, CSS3, JavaScript (ES6+), Bootstrap, Responsive Web Design.
Databases:	Microsoft SQL Server, T-SQL, Database Design & Normalization.
Tools & Practices:	Git, GitHub, Visual Studio, VS Code, SSMS, Postman, Software Lifecycle Management.

FEATURED PROJECTS

Grade System (.NET / C#) *— ASP.NET Core MVC, EF Core, SQL Server, Bootstrap*

- Developed a full-stack web application automating student enrollment and grade reporting workflows.
- Implemented back-end logic using C# and ASP.NET Core MVC with Entity Framework Core Code-First approach.
- Designed an optimized SQL Server relational database and created responsive user interfaces.
- Integrated authentication and role-based access control (RBAC) for secure user authorization.

E-Commerce Web API *— ASP.NET Core Web API, EF Core, LINQ, Postman*

- Built a scalable RESTful API solution supporting catalog management, product queries, and checkout processing.
- Applied Repository Pattern principles using EF Core with LINQ queries.
- Rigorously tested and validated API endpoints using Postman to ensure high reliability and performance.

PRACTICAL TRAINING & EXPERIENCE

Full-Stack .NET Developer Trainee *| Digital Egypt Pioneers Initiative (DEPI)* **Jul 2026 — Present**

- Intensive hands-on training focused on C#, ASP.NET Core MVC, Web API, and Entity Framework Core.
- Designing relational databases using Microsoft SQL Server and writing optimized LINQ queries.
- Applying software engineering fundamentals, database design, and version control using Git and GitHub.

EDUCATION

B.Sc. in Computer Systems Networking and Telecommunications **Graduation Year: 2026**

Culture and Science City, 6th of October | Overall Grade: Good

CERTIFICATIONS & COURSES

- **Digital Egypt Pioneers Initiative (DEPI)** — Software Development: Full-Stack .NET Web Developer Track *(Jul 2026 — Present)*
- **Machine Learning Training** — Supply Training Academy
- **Introduction to Artificial Intelligence** — Supply Training Academy
- **C++ Programming Training** — Supply Training Academy
